

Get Your Records in Order For CSA 2010!

Perhaps the most important task you can do to prepare for CSA 2010 is to organize your driver & fleet safety and compliance data. The FMCSA will be looking for your attention to this information. J. J. Keller's technology is proven, and it's here to help.

CSA 2010 Basic • Unsafe Driving, Driver Fitness, Crash Experience

Driver File™

Centralize your driver records in a database and easily manage recurring qualification items with system alerts. Software helps manage Safety Performance History reporting and accident recording. **CSA 2010 Basics – Unsafe Driving, Driver Fitness, Crash Experience**

CSA 2010 Basic – Unsafe Driving, Driver Fitness, Crash Experience

Alcohol and Drug Testing

Manage your driver drug pool and random selection in compliance with Part 382 of FMCSA regulations. Password protection keeps records confidential. Use with Driver File software for Safety Performance History reporting. **CSA 2010 Basic – Drugs/Alcohol.**

CSA 2010 Basic • Drugs/Alcohol

CSA 2010 Basic • Fatigued Driving

Log Checker®

Quickly and accurately audit your driver logs for hours of service compliance. Alerts on the software home page give you a quick view of reporting such as: Hours Available, Top 10 Violators, Critical Violations and Drivers with Falsifications. **CSA 2010 Basic – Fatigued Driving.**

Maintenance Manager™

Keep accurate preventive maintenance records with system alerts for key maintenance needs and service items. Software generates repair orders and manages parts inventory.

CSA 2010 Basic – Vehicle Maintenance.

CSA 2010 Basic • Vehicle Maintenance

Fuel Tax Master®

Simplify your IFTA reporting with Fuel Tax Master. The system calculates accurate state tax rates and generates IFTA reporting based on the trips you enter.
