

J. J. Keller's KellerMILES™ Software

J. J. Keller
& Associates, Inc.®
Since 1953

KellerMILES™, powered by ProMILES®, has been updated to feature more functionality and save your drivers time on the road. Version 14 will help save you money and time by accurately providing drivers with the information they need before they hit the road.

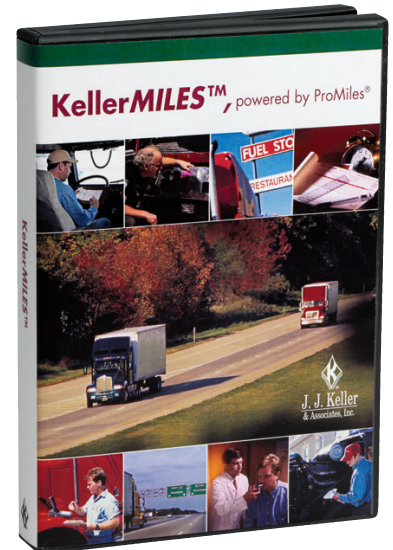

KellerMILES™ will help improve your bottom line by:

- Calculating accurate point-to-point mileage
- Determining the best travel routes based on your criteria
- Evaluating fuel prices daily
- Generating detailed maps
- Improving your ETA's with accurate and reduced fuel consumption

Version 14 highlights include:

- ✓ Speed of route calculation now three times faster
- ✓ Address to Address Routing, powered by TeleAtlas
- ✓ Basic fuel purchase optimization with DAILY fuel price updates
- ✓ Customizable trip sheet creation
- ✓ Vehicle configuration calculations
- ✓ Email options to send fuel optimization results, send state mileage summaries, receive quotes, and more
- ✓ Updated road databases: over 931,000 road miles
- ✓ Updated truck stop database: over 9,400 truck stop locations
- ✓ Updated toll rates
- ✓ Updated road restrictions
- ✓ Updated HAZMAT restrictions
- ✓ Updated and expanded scale locations

KellerMILES™, powered by ProMILES®, is federally approved and is compliant with State/DOT requirements. Why not save yourself time and use the same database used by all the Canadian provinces and 43 U.S. State/DOT agencies.

Minimum System Requirements:

OS: Windows® 2000, XP, Vista
