

J. J. Keller's Log Checker® Software

J. J. Keller
& Associates, Inc.®
Since 1953

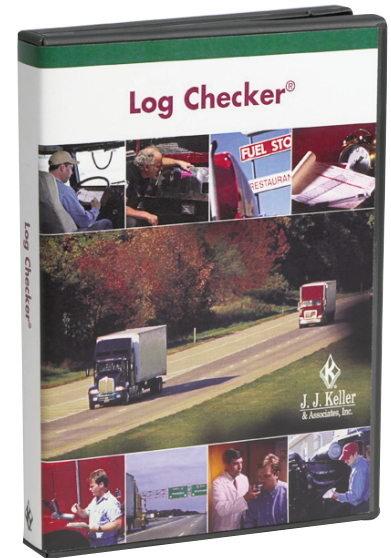

Streamline your log auditing for quick and accurate results with J. J. Keller's Log Checker® software.

J. J. Keller's Log Checker® software helps improve the workflow of your driver log auditing with easy navigation. Just as important, it keeps you in compliance with hours of service regulations and gives quick access to accurate driver data. Log Checker® simplifies what is typically a manual, time-consuming process, giving you time to focus on other important business issues.

Log Checker® provides:

- Homepage alerts that immediately show important information such as your top ten HOS violators and drivers with falsifications
- Regulatory content and ez Explanations® with simple search tools
- Driver compliance notices, hours available reports, driver summary reports, violation summaries and more
- Built-in verification checks that identify falsification of log data
- Smooth navigation that guides you through data entry and log auditing

To enhance your Log Checker® software, integrate it with J. J. Keller's timesaving Driver File™ and Alcohol & Drug Testing Software for a suite of driver management tools.

Minimum System Requirements:

- PC with Intel® Pentium® processor or equivalent AMDT processor
- Windows® 2000, XP, or Vista 32-Bit
- 1 GB RAM
- HP LaserJet or compatible printer
- High Speed Internet Connection
- DVD Drive for Product Install

Log Checker® Pricing

1-10 Drivers 715-CSW-A.....	\$499.00
11-24 Drivers 715-CSW-B.....	\$599.00
